

# San Francisco Atheists

Sharpen your pencils, we're going back to school! In 2003, the California Academy of Sciences closed its doors to begin construction on their new facility. The enterprising folks at SF City College pillaged the remains of the Academy's *Life Through Time* exhibit, procuring panels, murals, fossils, rock samples, and scale models — all in need of a loving home. After five years of installing, designing, revamping, and augmenting, ***The Story of Time and Life*** was born. Come join us at City College for a presentation of this massive multidisciplinary display. **Professor Katryn Wiese** will give a talk on the history of life from the Big Bang up through humans, followed by an open house tour of the show. She will be there to answer our questions as we walk the exhibit along all four floors of the Science Building. Katryn Wiese is Earth Sciences Department Chair and Professor of Geology & Oceanography.

**Saturday August 27, 1:30 - 3:30 pm**

**City College of San Francisco, Ocean Campus, 50 Phelan Ave. (off Ocean Ave.), Science Building (west side of campus), Room 136.** Convenient parking is available for \$3-- passes are sold from the machines in the lots.

City College is about 15 a minute walk from the Balboa Park BART station, and also accessible from MUNI train lines J, K & M, and bus lines 29, 43, & 49. By car, take the Ocean Ave. exit off 280.

*Note: this is not our usual time & venue! There is no event at Schroeder's this month.*
