

San Francisco Atheists

We're celebrating the birthday of Charles Darwin this month with our annual Darwin Day event, **Evolutionpalooza!** Steve Newton, Programs & Policy director for the National Center for Science Education presents the documentary film, **'No Dinosaurs in Heaven'**. This film, by award-winning director Greta Schiller, takes us along on a raft trip through the Grand Canyon, while examining the challenges to science literacy and education from creationists.

Live music will be performed by Joey Fabian of **'The Skeptic's Jukebox'**, singing secular tunes. We'll enjoy birthday cake for Chuck, then join in a rousing round of the team trivia game, Evolutionary! Science, food, and music-- free and open to the public!
