

San Francisco Atheists

Space, the final frontier...this month we are pleased to welcome **NASA engineer Miryam Strautkalns**. Miryam will share with us her experiences as an atheist living in the Midwest and as an atheist at NASA, all from a woman's perspective. Raised in Michigan, Miryam moved from the marketing and accounting fields to engineering, and now works as a software engineer and web developer at NASA Ames Research Center. She also runs marathons and plays a mean game of pool.
