

# San Francisco Atheists

Join us this month for a moment of science! **Herb Masters** joins us to discuss his work as a science educator, to share the Bay Area's abundant science resources, and encourage us to get involved. Herb is co-editor of the SciSchmooze newsletter, volunteer at the explOratorium, docent at the California Academy of Sciences, and board member of Bay Area Skeptics. He'll give us a preview of the exploratOrium's new waterfront location and also this fall's Bay Area Science Festival.

Please join us for this conversation on the importance of science education and public engagement, and the richness of the Bay Area science scene.

**Saturday March 30**

**Schroeder's Restaurant, 240 Front Street, rear dining room**

**Meet at 4:30 to socialize, eat, and drink. Program at 5:00.**

**Near the Embarcadero MUNI/BART station**

**Free, cash donations welcome**
