

San Francisco Atheists

While awaiting the imminent publication of *On the Historicity of Jesus*, we welcome back **Dr. Richard Carrier**, who will talk about his newly published anthology, ***Hitler Homer Bible Christ: The Historical Papers of Richard Carrier 1995-2013***. This work contains essays and academic papers on subjects including: what purpose historians serve in society, how history can actually be an experimental science, exposing bogus Hitler quotes, and demonstrating that some early non-Christian references to Jesus are fake. Dr. Carrier will also talk about how he was independently funded to research and write about how the Gospels contradict each other on dating the year of Christ's birth, how we know the ending of Mark is a forgery, and other topics, including future research now going on in Sweden due to Carrier's journal publication of his results on those bogus Hitler quotes.

Richard's talk will be followed by Q&A, and his book will be available for signing and sale for \$20 (cash, check, or credit card accepted). The book is also available in [audio and Kindle](#) editions.

After the meeting, we'll join the author for food and drinks in the pub.
