

San Francisco Atheists

Join us for a showing of the new film, ***A Scarlet Letter -- An Atheist Documentary***. Written and directed by John Jennings, "This documentary explores why atheists are choosing to stand out against religious intrusion in public life, while showing the human face of atheism. Looking through the lenses of agnostics, humanists, secularists, and atheists, the film examines how non-belief is stigmatized, why it matters, and the importance of visibility. It also seeks to correct misconceptions while continuing to foster growth and understanding of the nonreligious community. Interviewees include best-selling authors, scientists, sociologists, psychologists, bloggers, vloggers, social activists, presidents of atheist organizations, and every day nonbelievers. Each offers a unique insight into the atheism movement and shares just what makes them passionate."
